

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# Schroder Recovery Fund

a sub-fund of Schroder Recovery Fund

Class L Accumulation GBP (GB00BDD2F190)

## Objectives and investment policy

### Objectives

The fund aims to provide capital growth by investing in equities of UK companies that have suffered a severe set back in either share price or profitability.

### Investment policy

The fund is actively managed and invests at least 80% of its assets in equities of UK companies. These are companies that are incorporated, headquartered or have their principal business activities in the UK.

The fund applies a disciplined value investment approach, seeking to invest in a select portfolio of companies that the investment manager believes are significantly undervalued relative to their long-term earnings potential.

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

### Benchmark

The fund does not have a target benchmark. The fund's performance should be compared against the FTSE All Share (Gross Total Return) index and the Investment Association UK All Companies sector average return.

### Dealing frequency

You may redeem your investment upon demand. This fund deals daily.

### Distribution policy

This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.

## Risk and reward profile

### The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

### Risk factors

**Currency risk:** The fund may lose value as a result of movements in foreign exchange rates.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

**Operational risk:** Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

**Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

**IBOR:** The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

**Derivatives risk – Efficient Portfolio Management and Investment Purposes:** Derivatives may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. When the value of an asset changes, the value of a derivative based on that asset may change to a much greater extent. This may result in greater losses than investing in the underlying asset.

## Charges

### One-off charges taken before or after you invest

**Entry charge** None

**Exit charge** None

This is the maximum that might be taken out of your money before it is invested.

### Charges taken from the fund over a year

**Ongoing charges** 0.84%

### Charges taken from the fund under certain specific conditions

#### Performance fee

None

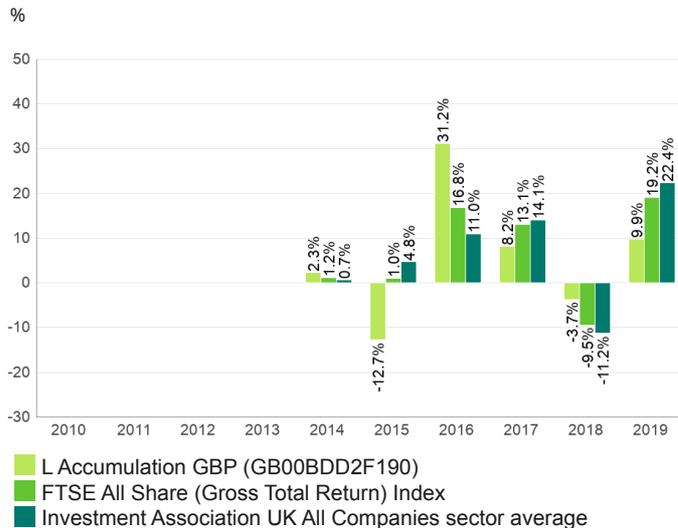

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2019 and may vary from year to year.

Please see the prospectus for more details about the charges.

## Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 05 May 1970.

## Practical information

**Trustee:** J. P. Morgan Europe Ltd.

**Further Information:** You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly reports and the latest price of units from [www.schroders.com/ukinvestor](http://www.schroders.com/ukinvestor) and from Schroders, PO Box 1102, Chelmsford, Essex, CM99 2XX, England, telephone 0800 718 777. They are in English, free of charge.

**Tax Legislation:** The fund is subject to UK tax legislation which may have an impact on your personal tax position.

**Liability:** Schroder Unit Trusts Ltd may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the fund's prospectus.

**Switches:** Subject to conditions, you may apply to switch your investment into another share class within this fund or in another Schroder fund. Please see the prospectus for more details.

**Remuneration policy:** A summary of Schroders' remuneration policy and related disclosures is at [www.schroders.com/remuneration-disclosures](http://www.schroders.com/remuneration-disclosures). A paper copy is available free of charge upon request.

The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

**Glossary:** You can find an explanation of some of the terms used in this document at [www.schroders.com/ukinvestor/glossary](http://www.schroders.com/ukinvestor/glossary).

**Benchmark:** The constraining benchmark has been selected because the investment manager is constrained by reference to the value, price or components of that benchmark as stated in the investment objective and policy.
